Comes Now William S. Aholelei, Pro Se and  
IN forma Pauperis. Declare under the Penalty  
of Law that the foregoing is true and  
Correct.

Introducing exhibits A-1, A-2. This is a  
description of the procedure which is the old  
fashion methods. I had described in my com-  
plaint and is the most extremely painful methods  
imaginable. I would compare it to someone  
using a Coat hanger and shoving it up the pee  
hole and jabbing it around your kidney!

May that wasn't bad enough! I had to  
do this twice! After the procedure, I was  
returned to Hawaii and the medication given  
at the hospital wore off!

Just imagine of how bad my pain was when the medical unit gave me nothing to ease my pain and this went on for days without pain medication while bleeding for days!

Exhibits A-3 and A-4, Shows the size's of stones in my Kidney!

There were four (4) Big stones the size of a pigeon egg! This is why...? DR. Kuchenbecker prescribed the Shock wave the proper treatment for my medical problems! But the Defendants deliberately or otherwise denied that! but rather ask the specialist to perform a ~~lesser~~ expensive treatment for my serious medical needs! I could lost my life because of this deliberate indifference! to my serious medical needs!

Exhibits A-5, A-6 are picture of less than half of stones that passed out of me! With no pain medication from Defendants and had been asking for help!

Exhibits A-7, A-8 Stones still exists and Continuations of my pains and sufferings!

It tooks me a year or more of pains  
and continues complaints to convinced  
defendants to tak notice of me and the  
pains I went through and still is exper-  
iencing because of their deliberate  
indifference to my medical needs!

Respectfully Submitted!
